Do you know that over 83% of Singaporeans are on Social Media each day? Or that we spend over 2 hours a day on all Social Media Channels? That's more than twice the global average of 26% and slightly more than the world average of 2.0 hours spent a day.

From Facebook, Instagram, LinkedIn and YouTube, to blogs, forums, Pinterest and SnapChat, social networks have dominated our cultural landscape. While most of the major brands have a robust social media presence, start-ups, SMEs and even individuals have started to build their own brand presence on social media. How can you or your business tap on to this growing trend?

This fun yet intensive and interactive 2-day Social Media Marketing workshop will equip you with the frameworks, concepts and tools needed to succeed in social media. Suitable for beginning to intermediate level social media users, the course covers both the Art and Science of Social Media Marketing. Conducted by an experienced marketer and social media veteran, it will include a mixture of team exercises, brainstorming sessions and individual practice. Peppered with practical international and local case studies, role-playing scenarios, demonstrations, and hands-on activities, course participants will learn how to create, grow, and measure the effectiveness of their Social Media Marketing campaigns.
Target Audience

VPs and Marketing directors, PR directors, Marcom directors, social media managers, community managers, bloggers, digital marketing executives, PR executives, account managers, account executives, and anybody who needs to use social media to attract customers and prospects, cultivate leads, deepen customer relationships, increase brand awareness, improve public perception and drive sales.

Prerequisites

Participants are required to be able to perform basic tasks on social media platforms, i.e. Facebook, such as navigating profile pages and posting social media content.

Face-to-face classroom learning mode: Each participant will be provided a windows laptop for the duration of the course. Participants may however opt to bring their own laptops.

Online-classroom learning mode: Personal computer, stable internet connection of at least 10mbps, webcam, microphone, video conferencing platform, and other logistical requirements outlined in the Online-based Classroom Learner Guide.
In this course, you will learn:

✓ Assess need for Social Media and select the right social media marketing channels
✓ Develop a social media marketing plan comprising the six-steps of Discover, Define, Develop, Deliver, Measure and Manage
✓ Craft an in-depth customer persona, and use it as a base for social media content creation
✓ Map out their social media marketing goals on a digital marketing funnel, and identify the right KPIs, social media channels and content types for each stage of their customer’s buying journey

TESTIMONIALS

Louis Lye
FITBIT

“Extremely likely to recommend to friends because it is easy to understand, systematic processes and tools illustrated. This course is highly recommended for both practitioners and senior leaders who may have in house teams or outsourced vendors doing digital marketing.”

Cara Yin
AUDIO-TECHNICA (S.E.A.) PTE LTD

“Equinet’s social media marketing course introduced me to many useful tools and skills that are relevant to my social media marketing goals. Walter was also friendly, easy to talk to and easy to understand.”

Allyce Lee Ooi Hui
NANYANG POLYTECHNIC

“The examples shared and resources are really really helpful. For a beginner like me, some of the hands-on may seem difficult to grasp however with the resources shared, I trust that they will greatly aid in my attempt to implement social media marketing if need be. Furthermore, Walter is really friendly and approachable and most importantly, he is willing to share his contact so that we can always ask him regarding any SMM problems. The staff at the front desk were also very friendly and polite. Well done team!”

Yee Wah
PANASONIC SYSTEM SOLUTIONS ASIA PACIFIC

“Very useful information and good knowledge to take away, especially for a beginner like myself. Will definitely recommend this course to my colleagues and friends!”

It is a great course to help refresh and educate marketers on the new skills. Walter is great and interesting by sharing real life examples. As a marketing coordinator, it has given me more confidence to manage my organisation’s social media accounts. Thank you!

Alicia Lau Zhi Jun

Great hands-on, practical examples and work (very important) and knowledgable trainer—great slides as well! Having researched a few other digital marketing courses, many focused on theory but lacked in practical exercises. I picked Equinet primarily because they were able to meet my expectations on this— and I am definitely not disappointed! Great course!

FAQs

+ What is Social Media Marketing exactly?

Social media marketing (SMM) is a form of digital marketing that focuses on using social networking websites like Blogs, Facebook, LinkedIn, YouTube, Instagram, Twitter as marketing channels.

One of the goals of social media marketing is to produce content that users will share with their social network to help a company increase brand exposure and broaden customer reach.

Typically, social media marketing campaigns focuses on three main areas:

- Establishing a social media presence on major platforms
- Creating shareable content
- Cultivating customer relationships

Social media marketing covers a wide range of activities targeted at growing one’s online influence. It can be anything from starting a blog, participating in an online forum, to online community management of Facebook pages, sharing of stories on Instagram, and producing of infographics.

+ What is the difference between online classroom and face-to-face traditional classroom?

Typically, in a traditional classroom, classes are conducted with 1 trainer to 20 - 25 learners in a cluster or classroom seating format. Group discussions, group presentations, lectures, peer-to-peer coaching are all conducted face-to-face (in person).

In an online-based classroom, lessons will be delivered via a video conferencing software. Lectures will be conducted via screensharing, while group discussions and group brainstorming will be conducted via “breakout” rooms (individual virtual rooms) to split up discussions into smaller groups.

Read the Online-based Classroom Learner Guide for a more detailed comparison on both formats.
FAQs (CONT...)

+ How is this course different from other social media marketing courses in the market?

This course provides you with bite-sized, yet comprehensive and actionable social media marketing strategies and tactics that you can implement right after the course, unlike other Diploma and certification courses which are packed with assignments and require long-term time commitment. Beyond this, it’ll also be conducted by a highly experienced social media marketing professional.

At Equinet Academy, we are committed to delivering quality training:

• We provide you with life-time access to up-to-date course materials (learner’s guide, slides, templates, and other training resources) via the learning portal.

• You will not sit through hours and hours of dry and tormenting lecture. Instead, you will experience instructional design learning methodologies such as discussions, group project work, interactive quizzes, and hands-on implementation of the concepts learnt.

• You will be guided by an experienced professional in the field of social media marketing, who will be able to provide you with actionable advice and costly mistakes to avoid, thus shortening your learning curve.

• You will be provided with additional support after attending the course.

+ What is the difference between this Social Media Marketing course and other courses offered by Equinet Academy such as the Facebook Advertising course?

The Social Media Marketing course looks at both the Art and Science of social media marketing. It covers the entire range of marketing goals which you may have - from awareness building, lead generation, community cultivation to triggering conversions online.

As an intermediate-level social media marketing course, it includes specific strategies and tactics to rule on Facebook, LinkedIn, Instagram and blogs, and incorporates viral storytelling and creative tactics that you can use.

This will be useful for marketers and publicists who need to know a broad range of strategies and tactics across multiple social networks, and are charged with the duty of producing content and managing communities online.

The Facebook Marketing and Advertising Course focuses mainly on paid advertising via Facebook Business Manager. Though there will be a small module on setting up a Facebook Ad in this social media marketing course, it will not be as comprehensive as the Facebook Advertising course. This is so that more time can be allocated to other social media platforms and on how to develop a holistic social media marketing strategy.

The Content Marketing course focuses on the strategy and planning of content development and content amplification tactics through a variety of digital channels such as search, social, and paid.

FREQUENTLY ASKED QUESTIONS

FAQs (CONT…)

+ Isn’t it possible to sign up for an online Facebook Blueprint Certification or other eLearning social media courses?

The value of a practical and get-your-hands-dirty course like ours is that you will actually be drilled on the use of specific tools and techniques during the programme. This means that you’ll literally be trained on how to apply different social media marketing frameworks in your campaigns, coached on troubleshooting (if any), and equipped with both knowledge and actionable skills that you can use.

For trainees that do not use social media on a regular basis, this course will help you to gain confidence in applying specific techniques in your campaigns, as well as to circumvent any mistakes that could be made by newbies to social media.

+ Is social media marketing relevant for me if I have a B2B business?

Yes it is. Many B2B brands are active on social media, and they’ve used social media marketing to build their brand awareness, engage customers and provide better customer service. Examples include Adobe, Intel, Caterpillar, GE, HootSuite, and many more. As part of the course, we will be looking at B2B examples of companies that have used social media to build their brands, generate leads, and trigger sales.

+ If I have specific questions relating to my social marketing campaigns, can I consult the trainer?

Yes of course. You may consult the trainer who’ll be happy to provide advice in any areas of your campaigns - from content messaging and copywriting, designing of visuals, using of the tools, to reading of your campaign analytics during and after class.
FREQUENTLY ASKED QUESTIONS

FAQs (CONT...) + Do I have to prepare anything before attending the course?

For the practical session of this course, you will need to set up a Facebook account. Course materials, a Windows laptop, and WiFI connection will be provided. You may wish to bring a notebook to take notes and a jacket as the room may be cold.

+ Are there any funding or government subsidies for this course?

Yes, please see fees and funding in the next section or use the funding calculator tool.

+ How do I sign up?

Simply click here to sign up for this course via the online course registration form. Once we have received your registration details and payment, we will send you instructions on how to apply/claim funding (if eligible) via email. Upon completion of payment and funding applications, your seat will be confirmed and we will see you in class!

+ I’m still unsure whether this course can help me meet my objectives.
